

Space Rates

Space alternatives are available for individual researchers, teams and groups; entire organisations and institutions; and third party organisations that want to repurpose Space. These are called Consumer, Wholesale and OEM Plans. Plans are offered at multiple price points.

Achieving Orbit

Space is a collaboratively funded scarce resource, and it is in everybody's interest to have a stable and sustained future. Commercial models generally apply.

- Pricing is simple: you pay per TB/Month.
- Merit pricing is available to approved research projects at heavily subsidised rates.
- Subscription pricing applies as an exclusive benefit from founding member investment in Space.

Free return

Your data may be eligible for Merit pricing subsidy – this can be up to 100% for some grant schemes. Merit requests are made in advance at space.intersect.org.au/merit

If your payload is data from research, considered useful for other researchers, well described by metadata and recognised as valuable by a research organisation, it's a great candidate for launch.

Consumer Plans

AAF authenticated bundles for individual researchers, research teams, and groups that are independent of an IT department.

Monthly consumption costs

Pay for what you use each month with a simple flat mechanism.

SpaceBase

\$45

per TB per month

SpaceShuttle

\$45

per TB per month

DeepSpace

\$20

per TB per month

Wholesale Plans

Own-LDAP authenticated bundles for IT departments of entire institutions, companies or government organisations.

Monthly reservation costs

Pay for what you pre-allocate each month independent of usage

InnerSpace

\$60

per TB per month

SpaceShuttle

\$60

per TB per month

DeepSpace

\$30

per TB per month

OEM Plans

Digital certificate authenticated bundles for organisations that want to re-purpose Space and manage access independently.

Monthly consumption costs

Pay for what you use each month with a simple flat mechanism.

SpaceLab

\$50

per TB per month

DeepSpace

\$25

per TB per month

Space Engineering

When you need help with consulting, advice, integration or software development, Intersect has experts that can help.

Rates vary based on role, project and circumstance, and member value is assured by a guaranteed discount structure.

Details, details...

We understand that your research data can represent your life's work, which means we need to take great care with it operationally, technically, commercially and legally. To occupy Space we ask you to sign up for a Space Plan as either a Consumer, Wholesaler or OEM and accept our Terms of Service.

Our Terms of Service cover your use and access to the services, client software and websites provided by Intersect Australia Limited. Our Privacy Policy explains how we collect and use your information while our Acceptable Use Policy outlines your responsibilities when using Intersect Services. By using our Services, you're agreeing to be bound by our Terms of Service, and to review our Privacy and Acceptable Use policies. If you're using our Services for an organisation, you're agreeing on behalf of that organisation.

Terms highlights

Broadly, here's where you stand with Intersect and Space:

- Intersect doesn't own your data.
- You don't own other people's data.
- You may opt in for third party services, and if you do so we are not responsible for what you share.
- We're not responsible for what others do with your data if you share it with them.
- Our Services are designed exclusively for use by legal adults.
- We won't retain your data if you decide to exit.
- We may collect data about you while you use our Services.
- We may use de-identified information about your usage to analyse and promote our Services.
- We are subject to Australian and NSW legislation and may disclose your data if compelled.
- You will behave responsibly and lawfully.
- We jointly agree to a resolution process in the event of a dispute.
- Losing your data is something we seek to avoid but something you should insure against.

Disclaimer: This description is a high level overview for informational purposes. You should review actual policies and terms before executing an agreement with Intersect Australia. Current information is available at space.intersect.org.au/terms.

Plans

Space Plans are the set of conditions and service levels that apply depending on your relationship with Intersect. In addition to standard terms, specific provisions apply per plan.

Consumer

As a consumer, you're in a direct relationship with Intersect and you:

- Agree to be identified as the responsible party as represented by your AAF credentials.
- Acknowledge that any sharing arrangement is subject to AAF policies and agreements.
- Agree to vouchsafe for the identities of any collaborators introduced to Space at your invitation.

Wholesale

As a wholesaler, you're typically a research institution in a direct relationship with Intersect that represents an aggregation of many end consumers. You execute an agreement on their behalf to:

- Vouchsafe for the identities of all consumers that you introduce to Space.
- Maintain the integrity and availability of your in-house authentication system to allow your the identities of your consumers to be verified.
- Indemnify Intersect from the actions of your consumers.
- Accept aggregated single billing for your consumers.

OEM

OEM agreements are executed with organisations that want to repurpose Space for particular applications or consumers that are independent of Intersect. You agree to:

- Indemnify Intersect from the actions of your consumers.
- Acknowledge that Intersect has no responsibility in authenticating or identifying end consumers.
- Accept a single bill regardless of your consumer base.

Billing

Space capacity pricing is simple and based entirely on TerabyteMonths – a flat charge to store a Terabyte of data for one month. Usage is sampled on a daily basis and the monthly high-water mark is used as the basis for charging. Different rates apply to different plans, according to Space rates.

Billing occurs monthly in arrears for consumption pricing, and monthly in advance for reservation pricing. Customers must maintain a credit balance in their account. Merit-based subsidies are applied as a rebate against standard rates for the life of the subsidy scheme.

Disclaimer: All prices, terms and conditions described were current as of 14 August 2014 and are subject to change. Current pricing is available at space.intersect.org.au/rates.

Intersect is a pivotal part of NSW research infrastructure. We provide robust, innovative, and collaborative technology to support the world-class research at our member institutions. Intersect delivers storage and analysis platforms, custom engineering, expert consultation and training programs to hundreds of researchers every year.
