# AI BOOTCAMP

## GenAI and LLM

**START DATE: 12th March**  
**Thursdays & Fridays 9.30am - 12.30pm**

**Register Now**

**\$850,- PP, SPACES ARE LIMITED**

## Learnings

**Master Generative AI & LLMs:**  
Build your own models in just 24 Hours.

**Evaluate and interpret the performance of your models**  
Learn the skills to understand model performance.

**Deploy your models**  
Learn the end-to-end process from development to deployment.

**Go beyond the hype.** This intensive program across four, 6-hour modules (3 hours per day) provides a structured, practical deep dive into Generative AI and Large Language Models using Python. From foundational NLP to deploying Retrieval-Augmented Generation (RAG), you will build the technical competence to lead in the age of AI.
